

Analytics Canvas Tutorial:

How to edit an SQL query

Analytics Canvas Tutorial:

How to edit an SQL query

Overview

Welcome to Analytics Canvas's tutorial. This is one of a number of detailed tutorials in which we explain how each feature within Analytics Canvas works, with additional context to help you understand it better, and to use it to best suit your own needs.

To edit an existing SQL query:

Step 1. Select SQL Database input block.

Step 2. Select the "SQL Query (input)" tab and click on the "Edit SQL" button.

"Edit SQL Statement" dialog will appear. Type a new query definition or modify the existing query and click "OK".
